TODAY'S CALL

GERRY BOT COWABUNGA REPORT · MON NOV 9 · NORTH PB

Glassy but above your comfort zone on the sets: paddle out at PB north around nine thirty as the very full tide drops, and sit inside for the medium ones. Calm wind

GAME PLAN · MAKE THE MOST OF IT

PB north of pier

WINDOW	9:30–11:30a · Anvil twin · ~75°F
SURF	4–6 ft, sets to 7 (SRF) · W 12s groundswell + W 9s windswell, above your ceiling on the bigger open-beach sets
TIDE	H 6.1 @ 8:07a L -0.5 @ 3:18p

through late morning, then NW 10 from about 1p.

H 3.7 @ 9:41p
obs 6.0 @ 5:48a

Why sets to 7 can still hide a fun medium wave.

Glassy W 12s, sets to 7: PB north on the drop

H 6.1 @ 8:07a · L -0.5 @ 3:18p · H 3.7 @ 9:41p · obs 6.0 @ 5:48a

PB north of pier from about 9:30 to 11:30a on the Anvil twin, sitting inside; PB Point also fine around 11:30a to 12:30p as it drains. Table tides: H 6.1 @ 8:07a, L –0.5 @ 3:18p, H 3.7 @ 9:41p. The gauge read 6.02 ft at 5:48a against a 4.74 ft prediction, about 1.3 ft over the table (SRF says 1.2 to 1.4 ft; coastal flood advisory through noon Tue), so the high lands near 7.3 ft real and is swampy. LJAC1 was S about 3 kt at 4:48a. NWS hourly has E 5 mph at 6–8a, calm at 9–10a, W 5 at 11a, NW 5 at noon and NW 10 from 1p. PZZ740 calls E 10 kt becoming NW this afternoon.

Where it's working

PB north of pier · 9:30–11:30a

★

LOCAL and BEST (single hero). 46258 SwH 1.1 m (3.6 ft) at 12.5s W (overnight 0.9–1.1 m at 12–14s) plus a W windsea about 2.6 ft at 9s, and NWS SRF 4 to 6 ft with sets to 7 and HIGH rips. That is above your comfort zone on the sets, and the bigger open-beach waves are beyond the fish. Pier north is the softer home sandbar, so sit inside and pick the medium ones. Glassy: LJAC1 S 3 kt at 4:48a, NWS calm 9–10a, W 5 mph at 11a, NW 10 mph from 1p. Scorecard 0.98 live and leads LOCAL through 11:30a.

CALL

- **Also fine · PB Point ~11:30a–12:30p**
  As the very full 8:07a high drains, PB Point lines up (scorecard 0.85 at 11:30a and the LOCAL leader by 12:30p), before the NW wind arrives around 1p.

  ALSO OK

- **Blacks · close on score, skip without a thruster**
  Scorecard 0.94 live and 0.95 late morning (46225 SwH 2.3 ft at 12s W), short of the +0.05 drive margin. On SRF 4 to 6 sets 7 the canyon is overhead, which is thruster territory and none in the quiver. Stay home.

  NOTE

- Skip · anything before about 9:30a on the swampy high, Little Point (drowned, then falling), open-beach Drive closeouts on the bigger sets, and the drained, windy low after about 2p.

  SKIP

BOARD

Anvil twin

~75°F

QUIVER

Anvil twin fish

Glassy pier-north sandbar is still Anvil territory if you sit inside and skip the big sets. The 7 ft sets and Blacks want a thruster you do not own yet.

TW log · too much size and rip today

'IKE · ONE THING TO REMEMBER

Why sets to 7 can still hide a fun medium wave.

Surf Height in the NWS report is the range of most waves, and sets are the bigger waves that show every several minutes. On a 12 second swell mixed with a 9 second windsea, the bigger waves arrive in groups with lulls between. Sitting a little inside of the main peak lets you pick off the medium waves in the lulls and duck the set waves.

SKIP

The swampy early high tide everywhere. Little Point (drowned early, falling later). Open-beach Drive closeouts on the bigger sets. Blacks without a thruster (overhead, beyond the fish). The drained, windy low after about 2p.

GOTCHAS

Size: SRF 4 to 6 ft with sets to 7 on mixed 290° and 210° swell, which is above your comfort zone on the sets; the bigger open-beach waves are beyond the fish on the Anvil. Sit inside, take the medium ones, and give the set waves room. HIGH rip current risk plus a Beach Hazards Statement through 10p Tue (NWS SRF). King-tide pattern: the La Jolla gauge is running about 1.3 ft over predictions with a coastal flood advisory through noon Tuesday, so the beach is narrow and backwashy near the high and the drain to a −0.5 low is fast. Shorter 12s period plus a 9s windsea makes it a bit more mixed and shifty than yesterday. Blacks: hike, shorebreak, canyon crowds, thruster territory.
