Sixteen degrees flips the LOCAL pin

Yesterday MWD sat at 216° (more south) and Little Point owned the cone. Overnight the peak swung to 232° WSW — right in open-beach ideal (230-280°) while LP's period score drops (Tp 11s under its 12s floor). Same Hs growth to 4.6 ft, same glass — different facing. Ride the sand before H 5.8 swamps Tourmo and before the noon W/NW texture.
