HOME STRETCH

LOCAL PB north · Drive · Tourmo · PB Point · Calumet · Little Point

NOT Cliffs · OB · Scripps · Blacks · North County

'IKE · ONE THING TO REMEMBER

Warm water stands taller.

The tide gauge reads ~1.2 ft above the table because late-summer water is warm and expands — the whole sea sits higher. Full bars mean fat waves; let the ebb drain them and the sandbars wake up.

WHERE IT'S WORKING

PB north of pier

★ The call. Glassy (LJAC1 S ~2 kt), 14s SSW ground on the sandbars, and the full morning high draining toward the 12:06p low. Score 0.86 — paddle out 7:30 and get it before the NW fill-in around 11.

CALL

2 PB Drive

Also fine — same 0.86 on the home stretch. Same window.

ALT

3 Calumet

Score 0.77 — SSW angle is right, but the tide is way too full for the reef right now (obs 5.4). Gets better toward late morning, just as the NW shows up.

SOFT

4 Tourmaline

Score 0.62 — high-tide mush on a 5.4 ft obs tide. Longboard only if you must.

SOFT

5 Little Point

Scorecard 0.98 loves 14s SSW + glass, but we're at the high and falling all morning toward L 2.5@12:06p (never CALL LP through a low), and ground is only ~2.0 ft. Skip the drive.

SKIP

• Skip · PB Point is undersize on this SSW (0.42). Cliffs (Garbage, Abs, Luscomb's) aren't clearer than PB on 2 ft ground. OB Pier wants NE offshore plus a thicker SW, not this. Evening high 5.4@5:57p rides NW-N ~9 kt wind and sunset is ~6:30p, so no evening call. Scripps and Blacks aren't local.

SKIP

Go 7:30a through 11a. Morning high H 4.2@7:08a, then a steady drain to L 2.5@12:06p, then up to H 5.4@5:57p. Observed 5.4 ft @ 6:48a — about +1.2 ft over the table, so the bars are extra full early and get better as it drops. LJAC1 S 170° ~2 kt @ 6:18a PT (glass). NWS grid N ~4 kt through 8a, calm 9a, NW ~4 kt 10-11a, NW ~9 kt noon-3p, N ~9 kt late afternoon. Sunset ~6:30p.

SKIP
Little Point on a falling tide toward the noon low (and only 2.0 ft ground). PB Point on this SSW. Calumet/Tourmo while the tide is this full. Cliffs aren't clearer. OB Pier isn't the NE-offshore recipe. NW wind after 11. Anything after dark.

GOTCHAS
Tide is running ~+1.2 ft over the table — the first hour is fat and backwashy. Rip risk is low (NWS). Hot day (NWS ~86-88°F by afternoon) — sunscreen and water. NWS Beach Hazards Statement starts 4p Tue (through Fri) — not today. Pier crowd.
